Second feet, acre feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for.....municipal and industrial

Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

4. The water heretofore permitted for.....municipal and industrial

Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

5. The water is to be diverted at the following point.....Temporarily from SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9.

Describe as being within a 40-acre subdivision of public survey and by course and

T.13S., R.71E., within Town Wash designated VVWD #27 as indicated on

distance to a section corner. If on unsurveyed land, it should be stated.

attached map

6. The existing permitted point of diversion is located within.....SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 28, T.13S.

If point of diversion is not changed, do not answer.

R.71E., M.D.M. The south quarter corner (S $\frac{1}{4}$) of said section 28 bears

S.86°36'0" E. a distance of 1050.00 feet

7. Proposed place of use.....See Page 2

Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.

8. Existing place of use.....See Page 2

Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or

manner of use of irrigation permit, describe acreage to be removed from irrigation.

9. Use will be from.....January 1.....to.....December 31.....of each year.

Month and Day

Month and Day

10. Use was permitted from.....January 1.....to.....December 31.....of each year.

Month and Day

Month and Day

11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and

specifications of your diversion or storage works.).....18" diameter exploratory well.....1.000

State manner in which water is to be diverted, i.e. diversion structure,

feet deep to define aquifer lithologies and hydrologic characteristics

ditches, pipes and flumes, or drilled well, etc.

12. Estimated cost of works.....\$350,000.00

13. Estimated time required to construct works.....one year

14. Estimated time required to complete the application of water to beneficial use..... one year

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

Application is for a temporary permit to drill an exploratory well. If
quality and quantity of water is favorable, well will be converted to a
production well to service the anticipated growth of Mesquite.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 51270 is issued subject to the terms and conditions imposed in said Permit 51270 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on June 22, 1995 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.0021cubic feet per second, but not to exceed 1.5
acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....

Application of water to beneficial use shall be made on or before.....

Proof of the application of water to beneficial use shall be filed on or before.....

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No. Issued.....

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this..... 23rdday of June

A.D. 19..... 94

[Signature]
State Engineer
